

The main figures of 2010:

In 2010 both the Association's revenues and costs were lower than the budget forecasts. However, the overall balance for this year is positive.

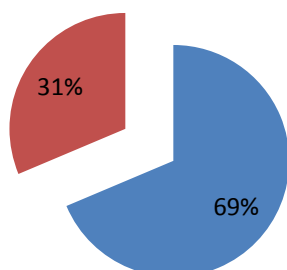

The aim of RING14 is to invest the collected money quickly and in the best way. The Association tries to cut down structural costs to the minimum so as to invest as much as it can in social projects to the benefit of the families.

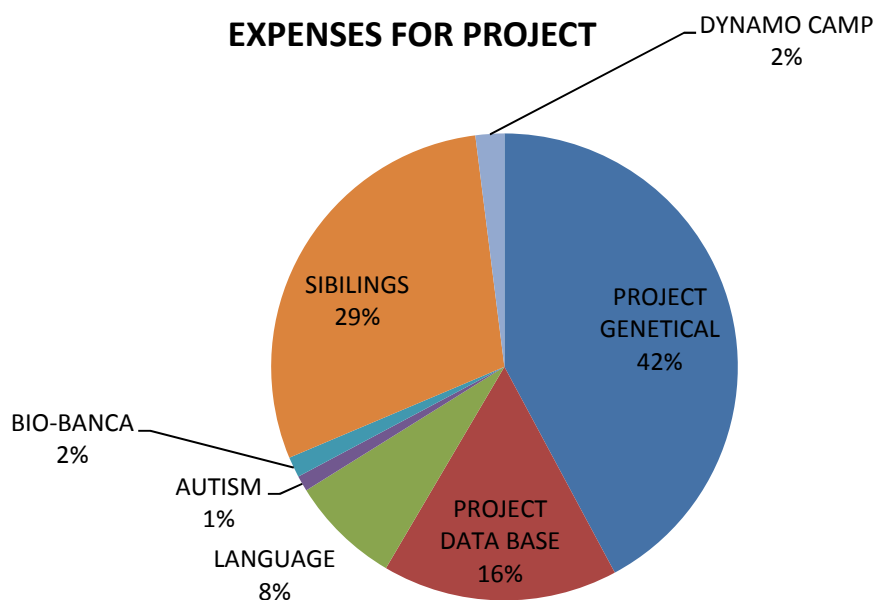

The organization's main mission is scientific in nature, but supporting families also via the social projects also plays a major role.
